

**Title:** It's All Fun and Games...And Then Students Learn

**Date/Time:** Wednesday, July 30, 11:15 AM – 12:00 PM

**Location:** Renaissance Austin Hotel

**Description:** This engaging presentation will demonstrate games for learning, from simple games for teaching topics such as algebra to first-person games teaching algebra and other topics. Games and simulations for teaching math, science, and other STEM disciplines will be explored. Learners will be asked to "play" educational games to get an understanding of how they can be used in a classroom.

**Presenter:**

**Karl Kapp, Ph.D.** is a consultant, speaker, scholar, and expert on the convergence of learning, technology and business operations. His background teaching e-learning classes, knowledge of adult learning theory, and experience training CEOs and front line staff provides him with a unique perspective on organizational learning. He was recently voted as one of TrainingIndustry.com's 2007 Top 20 Most Influential Training Professionals. His experience with technology companies and high-tech initiatives provides him with insights into the future of technology. He shares those insights and perspectives through writing, consulting, and coaching with clients in the fields of learning and e-learning. Learn more about Karl at <http://www.karlkapp.com/>.
