

Title: Hybrid Courses with Labs, Hands-On Demo

Date/Time: Wednesday, July 30, 3:00 PM – 3:45 PM

Location: Renaissance Austin Hotel

Description: This session will include a brief slide presentation on hybrid courses and vendors to work with, followed by attendees logging into an online LAB Training course. Attendees will be able to demo the Citrix lab environment. Attendees may also log into a Networking Routers course where they will demo a CISCO router online lab. All attendees will have full student access to the course shells including 2 online course content shells: Course I: Online Lab Training for Faculty, and Course II: Networking Routers Basics.

Presenter:

Pat Entesari has over twenty years of professional experience in the computer-information technology arena as a manager, team leader, consultant, employee and teacher. Several of her jobs have been for Fortune 500 firms and she has repeat clients. She is skilled in project management, multi-tasking, data analysis and client interfacing. Her recent focus is as a highly respected college professor/technology chair for DeVry University.
