

Title: LIDO Networking and Telecommunications Essentials e-Learning System

Date/Time: Thursday, July 31, 1:30 PM – 2:15 PM

Location: Renaissance Austin Hotel

Description: This session will explore a learning system that can improve your Net-Tel IQ – Networking and Telecommunications IQ. See how this comprehensive blueprint to the telecommunications industry engages and challenges users with a rich-media, multidimensional learning experience, incorporating a dynamic visio-audio presentation, simultaneous word-for-word transcript, clickable links to supporting educational resources, and interactive quizzes.

Presenter:

Lillian Goleniewski is Founder and President of the LIDO Organization Inc, a leading provider of telecommunications education, information, and advisory services. Lili is the author of the bestselling *Telecommunications Essentials: The Complete Global Source on Communications Fundamentals, Data Networking and the Internet, Next-Generation Networks, and Wireless Communications*. Her globally-acclaimed LIDO Telecommunications Essentials seminar series have served over 50,000 professionals and students worldwide since 1984. She is also the creator of the LIDO Telecommunications Essentials eLearning series, a 33-hour rich-media multidimensional learning experience. Lili has served as an Advisory Board Member for numerous industry conferences, technical committees and awards programs, in the US as well as abroad, and has also been an instructor at San Francisco State University. Lili further serves those seeking telecom knowledge through LIDO Telecom WebCentralR, featuring the LIDO Telecom Essentials Learning Center (www.telecomwebcentral.com).
