

**Title:** Learning Resources

**Date/Time:** Choose from one of the following time slots\*

**I:** Monday, July 28, 1:00 PM – 4:30 PM

-OR-

**II:** Tuesday, July 29, 1:00 PM – 4:30 PM

*\*The content presented is the same for both of these workshops.*

**Location:** Renaissance Austin Hotel

**Cost:** \$80

**Description:** Learn techniques and resources available to improving interaction and engagement in the classroom. This workshop explores the industry relevant and classroom-ready, media-rich technical education resources available through NetWorks, a National Science Foundation National Resource Center. Participants will delve deep into using a customized digital library service created for faculty and professionals in semiconductors, automated manufacturing, electronics, and related fields.

**Presenter:**

**Mark Viquesney** is an Instructional Developer and Technical Writer for MATEC NetWorks. He manages the NetWorks Resource Collection, Webinars, and edits/writes for the TechSpectives Blogs. In addition, he teaches and presents at conferences and meetings on "How to Use NetWorks," and the "Benefits of Using NetWorks".
